
15MWh Solar Energy Storage Container for Oil Platforms

Can high-power energy storage systems be used in isolated power systems?

This paper presents a technology suitability assessment (TSA) of high-power energy storage (ES) systems for application in isolated power systems, which is demonstrated through the case of offshore oil and gas platforms (OOGPs).

Should offshore wind be used as energy storage?

For offshore oil and gas platforms (OOGPs), offshore wind can provide an interesting source of renewable energy. However, due to the intermittent nature of wind power and high levels of energy security required by oil and gas operations, the use of energy storage (ES) might be inevitable.

Does JinkoSolar have a solar-plus-storage microgrid?

JinkoSolar, the global leading PV and ESS supplier, has successfully commissioned a 5.24MW / 15MWh battery energy storage system, forming an integral part of a "solar-plus-storage microgrid" in Southern Japan, by GWI.
