
20-foot folding containers for airport retail

What is a 20ft flat rack container?

The 20ft Flat Rack Container is a specialised container for the storage and transportation goods with unique dimensions that cannot fit inside a standard container. The end walls fold down flat, meaning the empty units can be shipped together more efficiently. Available in: 20ft and 40ft sizes.

Why should you choose a foldable container?

The foldable container is movable with crane or forklift hence better accessibility. Installation and dismantling is also very fast and can be constructed within 25 minutes. The insulation material used to construct the container also provides good sound and heat insulation.

How tall is a 20ft flat rack?

Individual container dimensions may differ. Spring folding, locking ends, timber floor. 6 or 7 to an 8'6" height depending upon model. Cargostore's 20ft Flat Rack is ISO certified and CSC plated with foldable walls, perfect for large, bulky and irregular shaped equipment.
