## 32a Portable Power Supply

What is a 32A power distribution box?

Rugged and versatile, these power distribution boxes have a long history of being used in a diverse array of environments that utilise a 32a supply, including sporting, entertainment and arts sectors.

What are 32A power distribution units & socket boards used for?

Our 32A power distribution units and socket boards can be used for a variety of different applications, though are especially popular within film and TV production, the live entertainment sector and within the events industry.

What is a 32A power distro?

A 32A power distribution unit (distro) takes a single- or three-phase 32-amp power supply and safely splits it into multiple lower-rated outlets, allowing you to run several pieces of equipment from one source. They're used in events, film & TV, construction, and marine for safely managing temporary power. Where can I use a 32A power distro?
