## 40-foot folding container manufacturer for base stations

What is a 40ft platform container?

The 40ft Platform Container is a specialised container for the storage and transportation of odd sized goods which may not fit in any other container. The 40ft is the largest Platform Container available. Available in: 20ft and 40ft. We also offer a folding Flat Rack Container in 20ft and 40ft versions All specifications are indicative.

What is a seafold 40" container?

A collapsed bundle of five SeaFold 40' containers accommodates the same slot as one conventional 40' High Cube container creating 80% more storage and operating cost efficiencies at terminals, railheads, and ports, along with reducing lifts and container movement on ships, truck, rail, and barges.

What is a 5-in-1 40" high cube shipping container?

The world's first 5-in-1 40' high cube shipping container that will revolutionize the intermodal shipping industry by providing significant cost benefits, improving empty container repositioning efficiencies, and lowering harmful CO2 emissions.

What is a 40ft Type (4)?

Four units fold into 8' 6". The 40ft Type (4) has a flat paneled end wall which folds directly on top of the base. When folded it can be used as a 40" platform flat. The base includes four full width cross floor lashing recesses which will support chocking blocks, lashing chains, straps etc. Recesses are open to the ground for self cleaning.
