
6kw uninterruptible power supply

What is a 3kva uninterruptible power supply?

3kVA uninterruptible power supplies are designed to power loads up to 3kVA but the kilo-Watt loading will depend on the UPS output power factor. Typical loads for a 3kVA UPS include file servers, storage devices, IT networks and VoIP telecoms systems.

What is a 650V/390W uninterruptible power supply?

The 650V/390W uninterruptible power supply (UPS) features an Ecologic battery backup. It offers an automatic power saving mode and a multifunctional LCD panel, making it modern and convenient. This UPS uses a simulated sine wave output to protect workstations, network devices, and home entertainment equipment.

What is 6000 W intelligent power supply?

The uninterruptible power supply on-line, 6000 W Intelligent series, without battery, is made according to the scheme with double conversion (on-line). It provides a load with a stabilized sinusoidal voltage and is designed to provide an uninterrupted power supply: for servers, telecommunication, network, and industrial equipment.

How does a 5V uninterruptible power supply work?

Many commonly available 5V Uninterruptible Power Supplies feature a two chip design with a Li-Ion battery charger to charge the back-up battery, and boost converter to step up the battery voltage back up to 5V. Like most of my personal designs, cost was not a primary driver.
