# **BESS container energy storage vehicle in Manchester UK**

Could a £750m battery energy storage scheme be the world's largest?

Planning permission has been granted for a £750m battery energy storage scheme (BESS) near Manchester. Carlton Power, the independent energy-infrastructure developer behind the venture, said the 1GW facility at the Trafford Low Carbon Energy Park would be the world's largest battery-storage facility.

Will a £750m battery energy storage scheme help Trafford & Greater Manchester?

The council's leader, Tom Ross, said that the battery storage and green-hydrogen schemes would put Trafford and Greater Manchester "at the forefront of the UK's energy transition". Planning permission has been granted for a £750m battery energy storage scheme (BESS) near Manchester.

What is the Bess scheme?

The £750m BESS scheme will strengthen the security and resilience of the energy system in the North West of England, and support the energy transition and the growth of renewable power generation in the region. Planning permission for the BESS was granted by Trafford Council, the local planning authority.

What is Carlton power's Trafford Bess project?

The Trafford BESS is Carlton Power's second major energy project that has been consented for the c12 hectare Trafford Low Carbon Energy Park, eight miles south of Manchester. The other project is Carlton's 200MW Trafford Green Hydrogen scheme; the scheme's first phase (15-20MW) is also set to enter commercial operation in Q4 2025.
