
Best earth leakage breaker factory Buyer

What is an earth leakage circuit breaker?

An earth leakage circuit breaker is a type of circuit breaker that has a voltage unbalance detection function in case of disconnection or abnormal connection of the neutral wire in a single-phase 3-wire circuit.

Where can I Find my earth-leakage circuit breaker?

Please refer to our Privacy Policy for details on how DirectIndustry processes your personal data. Find your earth-leakage circuit breaker easily amongst the 23 products from the leading brands (CIRCUTOR, Mitsubishi Electric, Carling Technologies, ...) on DirectIndustry, the industry specialist for your professional purchases.

Why is an earth leakage breaker necessary?

An earth leakage breaker is necessary to provide a key safety mechanism that reduces the harmful effects of most faults caused by the live wire touching something it shouldn't. This is achieved by connecting the earth wire to both the physical ground and the neutral point at the source of power.

What does an earth leakage breaker detect?

An earth leakage breaker detects that not all the electricity that flowed "in" via the live wire, flowed "out" via the neutral wire. As soon as the earth leakage breaker detects this, it should trip and stop all electricity flow.

At Heking Electric (Wenzhou) Co., Ltd., I offer top-quality Earth Leakage Breaker products tailored for OEM needs, ensuring safety and reliability for your business
