Why did BPC decide to build 600 MW power plant in Botswana?

BPC eventually decided on 600 MW, consisting of four 150 MW units. According to BPC, the impetus for the project was the country's reliance on importing approximately 80% of its power from the South African utility, Eskom. In response to electricity shortages in South Africa, Eskom decided that it would cease power exports to Botswana by 2012.

Where is Botswana Power Company located?

Botswana Power Corporation is located at Motlakase Hse, P.O. Box 48, Gaborone. It is a Western Cape-based company in South Africa with a phone number 3603000 and categorized under Electrical Service.
