
Cambodia energy storage product exports

Does Cambodia export solar panels?

In 2022,Cambodia's solar panel exports soared by 2.8 times year-on-year to USD1.0 billion; the share of solar panel exports to the country's total exports rose to 4.6 percent from 1.4 percent.

How has the energy supply in Cambodia changed over the years?

Total primary energy supply (TPES) increasedby 5.8% per year in 2000-2010 and by 8.0% per year in 2010-2019,showing the same trend as that of TFEC. Due to the significant increase in electricity demand,Cambodia rapidly increased its hydropower and coal power generation in 2010-2019.

Why should Cambodia invest in solar panels?

Despite facing significant challenges,Cambodia possesses several advantages that would support the continued development of its solar panel industry. Cambodia can diversify its export destinations from the U.S. to developing economies,such as those in the Middle East or Africa who are transiting to greater use of renewable energy.
