## Central Asia Company's own power station energy storage

What is Uzbekistan's First Energy Storage Project?

Installed with Sungrow's cutting-edge liquid-cooled ESS PowerTitan 2.0, this facility marks Uzbekistan's first energy storage project and stands as the largest of its kind in Central Asia. The project will play a pivotal role in driving the region's energy transition forward and setting a sustainable precedent.

Why is energy storage important?

The introduction of energy storage projects provides greater supply security and helps mitigate the intermittency of renewable generation. As a vital part of the national plan, the Lochin 300MWh BESS project will provide 2,190GWh of firm capacity and flexible power annually to support a more resilient local electricity grid.

Why is Uzbekistan launching a more market-oriented electricity sector?

In addition, Uzbekistan heads to establish a more market-oriented electricity sector, with a new electricity legislation enacted last July. The introduction of energy storage projects provides greater supply security and helps mitigate the intermittency of renewable generation.

Central Asia has the potential to make an important contribution to the global energy transition. Sungrow has held a leading ...

The World Bank Group, Abu Dhabi Future Energy Company PJSC, and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt solar ...

Sungrow's Commitment to Central Asia's Energy Transition As a leader in PV and energy storage markets, Sungrow has supplied Kazakhstan's largest solar power plants and ...

Sungrow and CEEC have completed the largest energy storage project in Central Asia. This significant achievement took place in ...

Central Asia Company's own power station energy storage Sungrow and CEEC launched Lochin, a 150MW/300MWh energy storage project in Uzbekistan's Andijan Region--the largest in ...

On March 31, the second phase of the 100 MW/200 MWh energy storage station, a supporting project of the Ningxia Power's East Ningxia Composite Photovoltaic Base Project ...
