
Gigawatt-hour energy storage power station in Central Africa

Does Scatec have a solar-plus-storage site in South Africa?

Scatec's Kenhardt solar-plus-storage site in South Africa (above), which went online at the end of 2023.

Image: Scatec. Africa's energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar's latest report.

What are the most popular solar-plus-storage developments in Africa?

As noted by AFSIA Solar, one of the most notable solar-plus-storage developments in Africa is Norway-based independent power producer (IPP) Scatec's 225MW/1,140MWh Kenhardt project in South Africa. The site started operation in late 2023 (pictured above).

What is the energy storage capacity of the Ingula PSS?

Straddling the border of South Africa's KwaZulu-Natal and Free State provinces, the Ingula PSS has an energy storage capacity of 21 GWh, or 15.8 electricity generating hours.

What is the Drakensberg pumped storage scheme?

Designed to generate electricity for 10 hours per day through its four 250 MW turbine generators, the Drakensberg Pumped Storage Scheme is an energy storage facility, situated in the northern parts of the Drakensberg Mountain range of South Africa, which provides up to 27.6 GWh of electricity storage.

The Africa Solar Industry Association's 2025 market outlook has recorded a 2.5GW increase in PV installations in 2024.

Three companies have partnered to develop the Northern Power IPP solar and battery project in the power hungry Copperbelt, as Zambia continues efforts to reduce its ...

With the energy transition currently underway in Africa, the rapid increase in energy production to meet both demand and emissions reduction targets present a risk in the form of ...

AFRICA is experiencing a major boom in battery storage, as residential homes, businesses and institutions like hospitals and schools ...

Africa's energy storage market has boomed since 2017, rising from 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar.

On March 31, the second phase of the 100 MW/200 MWh energy storage station, a supporting project of the Ningxia Power's East Ningxia Composite Photovoltaic Base Project ...

With the energy transition currently underway in Africa, the rapid increase in energy production to meet both demand and emissions ...

That doesn't just apply to standalone energy storage projects; GEMS is an EMS from which any type of energy asset can be controlled, ...

The Silent Revolution in Energy Democracy Here's the kicker: 43% of the station's daytime output now powers local businesses instead of just feeding the grid. A leather tannery that once ...

Africa's energy goals are closely tied to advancements in battery storage technology - not only in the generation of electricity but also in its efficient storage and ...

Establishing these gigafactories marks a crucial step toward Africa's energy independence, ensuring reliable access to clean energy storage -- vital for overcoming the ...

UAE-based Global South Utilities has begun construction on a 50 MW solar project with 10 MWh of battery energy storage systems ...
