How do shipping container cost calculators work?

Online shipping container cost calculators like FreightWise help take the guesswork out of your logistics budget. Enter your origin and destination ports, container size, cargo type, and shipping date to get an accurate quote based on current market rates. These calculators also consider seasonal changes and apply appropriate surcharges.

Are new shipping containers more expensive than used?

New containers are typically more expensive as they are in perfect condition and ready for long-term use. Used containers are less costly but have some wear and tear. Shipping container sizes and prices are directly linked to each other. The price also depends on how well the container has been maintained over time.
