# Huawei Tampere Finland Liquid Cooling Energy Storage

What is Huawei's new smart hybrid cooling energy storage solution?

Huawei has recently introduced the industry's first commercial new smart Hybrid cooling energy storage solution in Europe. It comes with several benefits and offers a circulation efficiency of 91.3% alongside a reliable user experience. On April 8, 2025, Huawei hosted a FusionSolar Industrial and Commercial Flagship Summit in Frankfurt, Germany.

What is a hybrid cooling energy storage system?

This has eventually established a new industry milestone in the six most critical standards for evaluating energy storage systems. A hybrid cooling energy storage system offers a 91.3% circulation efficiency. It has a unique pack optimizer with 100% DOD (depth of discharge) and a unique heat dissipation technology with 2% higher SOH.

What makes Huawei ESS so safe?

Huawei prioritizes the safety design of battery packs, the core component of an ESS. Each battery pack is encased in metal, and equipped with positive-pressure oxygen blocking and directional smoke exhaust mechanisms which prevent the spread of thermal runaway, minimizing risks. 3.

What is Huawei digital power ESS safety?

Huawei Digital Power has developed end-to-end technical capabilities in ESS safety, spanning from materials to intelligent sensing, cells to grids, and architecture design to safety protection. 1.

Hitachi Energy has signed an agreement with Nordic Electro Power (NEPower) to provide advanced power conversion technology for ...

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

Hitachi Energy will supply Finland's largest 125MW battery storage system for Alpiq in Haapajärvi, scheduled for mid-2027, to bolster grid stability and support the nation's energy ...

Huawei Digital Power is a leading global provider of digital power products and solutions, Our business covers Smart PV, Smart Charging Network, ...

Huawei has recently introduced the industry's first commercial new smart Hybrid cooling energy storage solution in Europe. It comes with several benefits and offers a ...

Huawei's new generation 215kWh wind-liquid intelligent cooling energy storage, along with Huawei's 150kW higher power inverter and supercharging technology, together form the three ...

Huawei Digital Power is a leading global provider of digital power products and solutions, Our business covers Smart PV, Smart Charging Network, Data Center Facility & Critical Power ...

Hitachi Energy has secured a contract from Nordic Electro Power (NEPower) to deliver advanced power conversion solutions for Finland's largest battery energy storage ...

The innovative thermal management architecture features hybrid air and liquid cooling, which reduces auxiliary power consumption, ...

---

Huawei Digital Power has launched the FusionSolar C& I LUNA2000-215-2S10 Energy Storage System, designed to meet the ...

Full Liquid Cooling Makes Data Centers More Energy-efficient AI applications, high-performance computing, and GPU servers have ...

Huawei Digital Power has launched the FusionSolar C& I LUNA2000-215-2S10 Energy Storage System, designed to meet the dynamic demands of the commercial and ...
