What is uninterruptible power?

In larger installations, uninterruptible power is much more than a small-scale battery UPS that keeps an alarm system running for an hour or two despite a power cut. Redundancy in the form of backup power systems is not uncommon when the need is greater.

Who needs uninterruptible power supply?

Companies and socially critical organisations in certain areas have a requirement for uninterruptible power supply. Hospitals are an example where ensuring uninterruptible power is more important than anything else. Equipment must not be exposed to power outages.

Can Bravida handle uninterruptible power supply?

Bravida has both small and large-scale expertise that can handle uninterruptible power supply for more extensive needs. Safe and uninterruptible solutions require analysis, planning, design, installation and operational monitoring. This is part of our everyday life and not something we take for granted.
