# Latest Energy Storage Projects in ASEAN

Does ASEAN need energy storage?

Determinedly, the region has set the targets of 23 per cent renewable energy share in Total Primary Energy Supply (TPES), and 35 per cent share of renewable energy in ASEAN installed power capacity by 2025.

This means that energy storage is required. What Is The Status Quo?

Is energy storage the future of Southeast Asia?

As renewable energy sources will play a more prominent role in the region's sustainable development, the integration of energy storage systems in Southeast Asia is imminent. Energy storage seems to be facilitating the transition towards clean and sustainable energy, particularly for islands and rural areas within the region.

Does ASEAN have a policy for promoting battery energy storage?

According to the ASEAN Centre for Energy (ACE) Policy Brief: Enabling Policies for Promoting Battery Energy Storage in ASEAN, only a few AMS have related policies. For instance, Thailand's Ministry of Energy presented its 'Energy 4.0' strategy by integrating disruptive energy technologies such as energy storage systems.

Which energy storage systems are being installed in Thailand?

Thailand installed two sets of KSTAR 5kW+10kWh energy storage systems (BluE-5000D) in December 2020. The storage already provides a clean and stable night-time power supply at the Chumpoll Temple in Ayutthaya Province, Thailand.

A finance partnership between the UK and Singaporean governments, HSBC bank, and German renewables developer Ib Vogt is ...

What is commercial and industrial energy storage? As electricity demand rises in the market, commercial and industrial energy storage may become an important means of realizing ...

Dr. Cheng identified pumped storage as a mature and economically viable flexible regulation resource, crucial for clean energy-dominated power systems. This training aims to ...

The country's first-ever large-scale hybrid solar-plus-storage plant, inaugurated early last year. Image: ACEN. Proposed changes to ...

According to the 8th ASEAN Energy Outlook, energy demand in ASEAN is projected to nearly triple from 2022 levels by 2050, driven by ...

China leads hydropower growth in East Asia-Pacific, with PSH expansion, policy reforms, and regional collaboration driving clean ...

Asean Energy Storage Market Size & Share Analysis - Growth Trends & Forecasts (2025 - 2030) The ASEAN energy storage market is segmented by type (pumped-hydro ...

As the global shift toward clean energy accelerates, the ASEAN region continues to emerge as a key growth hub for new energy and storage solutions. From January to May 2025, Southeast ...

Battery energy storage systems (BESS) are becoming an integral part of the global push to develop renewable energy sources to rein in carbon emissions from fossil fuel-based ...

---

Hydrogen is one key strategies under APAEC phase 2. In ASEAN coupling hydrogen and RE serve as future energy supply and ...

The size of the ASEAN Energy Storage Market was valued at USD 3.32 Million in 2023 and is projected to reach USD 5.25 Million by 2032, with an expected CAGR of 6.78% ...

The size of the ASEAN Energy Storage Market was valued at USD 3.32 Million in 2023 and is projected to reach USD 5.25 Million by ...
