## Lilongwe resumes tax on solar glass

How will the dgtr impose tariffs on solar glass?

The proposal suggests a five-year duty structure, following an investigation launched in February 2023. Unlike traditional tariff measures, the DGTR has introduced a reference rate system to regulate the landed value of solar glass imports. Under this system, authorities will impose duties only when import prices drop below the reference threshold.

How does dgtr regulate solar glass imports?

Unlike traditional tariff measures, the DGTR has introduced a reference rate system to regulate the landed value of solar glass imports. Under this system, authorities will impose duties only when import prices drop below the reference threshold. They will calculate the duty as the difference between the actual landed value and the reference rate.

Are textured tempered glass imports subject to anti-dumping duties?

Directorate General of Trade Remedies (DGTR) has recommended anti-dumping duties on textured tempered glass imports from China and Vietnam, a key material used in solar panel manufacturing. The proposal suggests a five-year duty structure, following an investigation launched in February 2023.

How many metric tons of solar glass did China Import in 2020?

The findings revealed a dramatic increase in solar glass imports, escalating from 29,980 metric tons in 2020-21 to 7,79,017 metric tons during the investigation period. Chinese imports surged from 29,324 to 6,59,732 metric tons, while imports from Vietnam grew from 656 to 1,19,285 metric tons.
