Who is building a solar power plant in Mali?

The solar power plant, which has been in the pipeline since 2020, will be built within the framework of a public-private partnership (PPP) by the Emirati company Amea Power. The Russian NovaWind will urgently install 200 MWp of photovoltaic solar energy in Mali.

Will a solar power plant supply 10% of Mali's electricity?

Once operational, the photovoltaic plant will be capable of supplying 10% of Mali's electricity. One day before the start of work on the Sanankoroba solar power plant, the Head of State of Mali, Assimi Goita, met with the General Director of NovaWind, Grigory Nazarov, to review the progress of the project.

What is NovaWind doing in Mali & Kyrgyzstan?

The Moscow-based company recently signed a partnership with the government of Kyrgyzstan (Central Asia) to develop 1,000 MW of renewable energy. NovaWind will invest EUR200 million in the project before it comes online in 12 months. Once operational, the photovoltaic plant will be capable of supplying 10% of Mali's electricity.
