# Manila solar Power Storage Project

How much power will a solar power project produce in the Philippines?

The project is going to have a solar power capacity of 3,500 megawatts (MW) and a battery storage system with 4,500 megawatt-hour (MWh) of energy storage capacity. The project is supposed to produce electricity for more than 2 million households in the Philippines once it's full operational in about 3 years (in 2027).

Who owns Terra Solar Philippines?

UK investment firm Actis has finalised its investment in Terra Solar Philippines Inc, thus taking an equity stake in a GW-scale solar and energy storage project in a deal worth USD 600 million (EUR 550.5m). Image by: Actis. The transaction was sealed with MGEN Renewable Energy Inc, a unit of Manila Electric Company (PSE:MER), or Meralco.

Who owns a 40% stake in Solar Philippines?

The agreement was signed between Actis, Manila Electric Co. (Meralco) and its subsidiary, Solar Philippines New Energy Corp. (SPNEC), which holds a majority stake in the project. According to local reports, Actis has invested \$600 million for a 40% stake in the project.

Which country is working on the largest solar power plus battery storage project?

Or follow us on Google News! The Philippines is working on the largest solar power plus battery storage project in the world, breaking ground on the project just a few weeks ago. Philippines President Ferdinand R. Marcos Jr. featured for the groundbreaking of the Meralco Terra Solar Project.
