
Off-site pricing for collapsible containers used in European ports

How much does it cost to reposition an intermodal shipping container?

The intermodal shipping container is 70 years old. Over the years it has been refined but ownership costs have increased. For example, this year, the annual operating prices have ranged between \$25,000 to \$40,000 to reposition an empty container.

Are global container shipping rates still 46% lower than last year?

Global container shipping rates are still 46% lower than they were in November last year. Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025.

Why is international container shipping on the decline?

Demand for international container shipping remains on the decline although many carriers are attempting to boost prices by adopting General Rate Increases (GRIs) and pushing up Freight All Kinds (FAK) rates. The composite price index fell by 5% between the first and second weeks of November.

How do I compare prices for international container shipping & moving?

When comparing prices for international container shipping and moving, it's important you understand what you need and how that affects the price you'll end up paying. The first thing to understand is the difference between an international mover and a freight forwarder also known as non-vessel operating common carrier (NVOCC).
