## P50 portable power bank

What is a P50 power bank?

The P50 stands out from other compact power banks thanks to the 45W output that supports PPS (Programmable Power Supply, the standard used by many phones for rapid charging) from 5V to 11V and up to 4.8A.

How big is the iniu P50 power bank?

It's a fitting inspiration since the INIU P50 power bank is sized in the same ballpark. This is a tiny power bank, but it still packs a punch with 10,000mAh capacity and 45W fast charging support. The device measures 8.3 x 5.2 x 2.6 cm, and weighs just 160g/5.6oz, so you can carry it in even smaller pockets.

What are the best mini power banks?

The INIU Pocket Rocket P50 is among the best mini power banks on the market. There are just a few similar products that could offer 10,000mAh capacity and 45W fast charging at such a low price of just around \$33 on Amazon or its official website. We highly recommend you to check it out if you are looking for a portable power bank.

Is the Pocket Rocket P50 the world's smallest power bank?

The new Pocket Rocket P50 has created some buzz as it is marketed as the world's smallest 10,000mAh 45W fast-charging power bank. I was excited to check it out because I always needed a backup power bank during my hiking or camping trips. Disclosure: We received the power bank as a courtesy for review purposes.

A 10,000mAh mini power bank with magnetic power bank convenience, 45W fast charging, a USB-C lanyard design, and airline-approved safety. Compact power on the go.
