
Park lighting solar container outdoor power

What are solar powered park lights?

Solar powered lights are a natural fit for public park lighting, outdoor playground lighting, resorts, and any place where the environment needs to be preserved. Greenshine modern solar LED park lights provide simple yet charming designs for areas where the aesthetic of the lights has to be taken into account.

Why should you choose greenshine modern solar led park lights?

Greenshine modern solar LED park lights provide simple yet charming designs for areas where the aesthetic of the lights has to be taken into account. At Greenshine New Energy, we offer state-of-the-art systems perfect for solar powered park lighting.

What type of LED lights do you use for solar park lighting?

Our solar park light fixtures use CREE LEDs to provide a wide range of lighting intensity and distribution pattern to fit a myriad of pathway sizes and shapes. We provide various fixture styles for your solar powered park lighting. An architecturally pleasing LED light fixture with a round form and dome-shaped top.

How long do solar powered park lights last?

This means your solar powered park lights will continue to function at 100% for 6 straight days of cloudy/inclement weather. Solar lighting for parks is an efficient way to drastically decrease electricity bills. Our 100% offgrid system helps you save big as it does not require trenching and has low maintenance costs over time.

There are many reasons to choose our solar-powered park lights over another conventional park lighting; ours work fully off-grid using only ...
