
Price of solar panels for Port Louis

How much does solar cost in Saint Louis MO?

As of May 2024, the average solar panel cost in Saint Louis, MO is \$2.78/W. If you install a 5 kW system it will cost you between \$11,800 to \$15,964, with an average cost of \$13,882. What incentives are available for solar in Saint Louis, MO?

How much does a 5 kW solar system cost in Saint Louis?

While a 5 kW system will only cost you \$13,882 in Saint Louis, MO, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Saint Louis, MO?

How can I reduce my cost of solar in Saint Louis?

Taking advantage of incentives and rebates and shopping around for quotes can bring down your cost of solar in Saint Louis, MO. As long as your federal tax bill is high enough, you can take advantage of the federal tax credit in Saint Louis, MO.

How much do solar panels cost?

This is lower than the average price of residential solar power systems across the United States which is currently \$3.00 per watt. The size of a solar panel system also plays a role in how much the installation will cost. Larger solar installations will typically have a lower cost per watt, because the panels can be purchased at a 'bulk price'.
