
Slovenia New Energy Base Station

Will EDF build a second nuclear power plant in Slovenia?

Their competitor French EDF is doing a separate study. Slovenia is planning to build the second unit of its Krsko nuclear power plant. GEN energija, the existing facility's operator, revealed that Korea Hydro and Nuclear Power (KHNP) dropped out, leaving Westinghouse Electric and EDF in the race.

How many hydropower plants will Slovenia have by 2045?

Another pumped storage hydropower plant is seen by 2045. It would be able to generate 180 MW and store 2.6 GWh. The Integrated National Energy and Climate Plan envisages an overall 500 MW in gas power plants in Slovenia by the end of the decade.

Will Slovenia build a second nuclear power plant?

Slovenia aims to decide by 2028 whether it will build its second nuclear power plant. The government is targeting a 55.4% share of renewables in electricity, 45.2% in heating and cooling and 25.8% in transportation, according to the updated NECP for 2030.

Will Slovenia's only coal power plant close in 2033?

The Fit-for-55 goal of a 55% drop in emissions is for 2030. Slovenia aims to achieve it only by 2033, the deadline it set for quitting the use of coal. But chances are that the country's only coal power plant, Termoelektrarna Sostanj (TES), and its accompanying mine Premogovnik Velenje, will close within a few years or operate at minimum capacity.
