
Taipei Energy Storage Project Construction

Which energy storage technology providers are active in Taiwan?

Several energy storage technology providers, such as Fluence, flow battery manufacturer Invinity and NHOA, are active in the market. It is worth noting that the Taiwan energy storage market is set to become a focus for Billion Electric with plans to develop 1.2GWh local battery system production capacity.

How much money does Taipower need to build a new storage facility?

The project will require an investment of more than TWD 2.6 billion. The proposed facility will be built at Taipower's Taoyuan Longtan substation in the north of the country, one of 29 it operates nationally. Once in operation, it will account for 37.5% of the utility's total storage capacity.

Will Taiwan's energy storage system play a role in grid stability?

TECO Chairman Sophia Chiu pointed out that in the future when a large amount of offshore wind power is added to Taiwan's power system, energy storage systems will play an important role in grid stability.

Will Taiwan need 90GW of energy storage by 2030?

TCC chairman Nelson Chang said in 2022 that Taiwan will need 90GW of energy storage by 2030 to integrate new renewable energy capacity. Several energy storage technology providers, such as Fluence, flow battery manufacturer Invinity and NHOA, are active in the market.

News Releases 2025/03 Taiwan CTCI Wins EPC Bid for LNG Storage Tanks at Kaohsiung Intercontinental Terminal, Bolstering Energy Transition KAOHSIUNG, March 17, 2025- ...
