# Uninterruptible Power Supply 9a

Is uninterruptible power supply TAA compliant?

An Uninterruptible Power Supply (UPS) is TAA Compliant when it is either manufactured or substantially transformed in the United States or other TAA Compliant Countries. Therefore, at the present time, UPS made in non-TAA Compliant Countries, including but not limited to China, India, and Thailand, cannot be sold through any GSA Schedule.

Why should you buy a 9a ups?

Online UPS with 0.9 Power Factor. 3 years warranty for peace of mind. Protect industrial internet of things (IoT) devices against blackouts, brownouts, overvoltages and power surges. In the event of a prolonged outage, battery backup allows time for task completion and graceful shutdown of equipment. The 9A UPS scales with your requirements.

What are Uninterruptible Power Supplies (UPS)?

Uninterruptible power supplies (UPS) are devices that allow machines to keep their field power supplies, programmable logic controllers (PLCs), and communications devices functioning during an unexpected outage. They offer a means of achieving this.

Do I need an uninterruptible power supply?

An uninterruptible power supply (UPS), which is a battery that covers the 15-20 second delay between the time when the power goes out and the generator kicks in, is necessary for the generator. When you are ready for your new generator, call Jack Lehr Heating, Cooling & Electric at (888) 454-7365 or contact us online!
