
Wholesale 100ah power station in Mozambique

What is the largest power station in Mozambique?

The 2,075 megawatts Cahora Bassa Hydroelectric Power Station (CBHPS) across the Zambezi River, is the largest power station in Mozambique. The power station is operated by Hidroelctrica de Cahora Bassa (HCB), a Mozambican parastatal company.

What is the largest power plant in South Africa?

The largest power generation plant in the country is the Cahora Bassa hydro dam, operated by the government owned Hidroelctrica de Cahora Bassa (HCB). HCB sells 65% of its existing generation to South Africa, and the remaining 35% is sold to the northern regions of Mozambique and to Zimbabwe.

Does Mozambique have a high energy demand?

Mozambique's domestic energy demand is increasing steadily and is expected to continue rising as the country industrializes. The Southern African Development Community (SADC) member countries are expected to have higher demand for power that could be met with Mozambican exports.

Will gas-based generation increase in Mozambique in 2025?

According to BMI Research, gas-based generation is expected to increase by 18.1% annually through 2025. Mozambique's first utility-scale solar power plant, a photovoltaic plant with a capacity of 40MW, was commissioned in Zambezia Province in 2019.
