
Yard home solar panel full set

What is a solar power kit?

Sunstore Solar offers complete solar power kits which include everything needed to fit and run off-grid solar panels for homes, houses and outbuildings. Home solar panels come in a range of sizes, power capacity and cost, and each of our fully-certified kits has been designed with efficiency in mind, across any budget range.

What is the best racking system for a ground-mount solar system?

The IronRidge XR Ground Mount System is the premier solution for installing ground-mount solar systems. We've partnered with IronRidge, the leading supplier of solar structural hardware, to bring you the best racking solutions for your ground-mount solar kit. Enjoy the highest quality racking from one of the most trusted brands in the industry.

What is included in a solar panel kit?

Each kit comes complete with tier-1 solar panels, grid tie inverters, and ground-mounting hardware. Choose our permit service to have detailed engineering plans and permit documents drawn up for you. Use our easy solar panel calculator to get a quick estimate of how many solar panels you'll need for your home.

What is a ground-mount solar system?

Ground-mount systems are ideal for snowy areas or some hillside properties. Access and maintenance are easier with ground-mount solar. You won't need a ladder or safety harness to clean off snow, dirt or debris from your panels. Ground-mount systems are more expensive than roof-mount systems.
